Products show

7075 aluminum plate used in the manufacture of aircraft structures and other demands high strength, strong corrosion resistance of high stress structure, such as plane, the wing wall plate and bulkhead and so on. Good plasticity after solid solution treatment, heat treatment reinforcement effect is very good, under 150 °C has high strength, and has very good strength at low temperature, welding performance is poor, has a tendency to stress corrosion cracking, two-stage aging resistance to SCC performance can be improved. Also used widely in machining, mould, etc

Packing & Delivery

Delivery Details : 45-60 days after receiving the prepayment.

Packing Details : Standard export package.
